

TABLE OF CONTENTS

R. Fitzpatrick and P. Shand Introduction - Regolith 2006	1
R. R. Anand Biotic or abiotic mineralisation of ferruginous pisoliths in tertiary palaeochannel sediments, Yilgarn Craton?	2
M.F. Aspandiar and T. Eggleton Weathering of biotite: micro to nano scale reactions in the regolith	5
G.R. Bann and J.B. Field Dryland salinity in South East Australia: a localised surface water and soil degradation processes?	9
F.R. Beavis, D.J. Ellis, S.A. Welch and D. Kirsche Geochemistry of sediments in response to urbanization in merimbula/pambula estuaries	14
S. Beavis, S. Welch, F. Beavis, A. Higgins, D. Kirsche, P. Somerville and L. Wallace The relationship between wetting and drying cycles and pedal structure, fabric and mineralogy at Loveday Lagoon	18
S. Beavis, S. Welch and D. Kirsche The relationship between soil physical properties and chemical fluxes, Loveday Lagoon	23
C.R.M. Butt and R.M. Hough Crystallographic controls on the Weathering of gold	26
J.D.A. Clarke An extraterrestrial perspective on terrestrial regolith	28
M. Cornelius, A.J. Cornelius, I.D.M. Robertson and P.A. Morris Laterite geochemical map of the Western Yilgarn Craton	33
R.G. Cresswell Dryland salinity in Queensland: how do we compare?	35
R.G. Cresswell, D. M. Silburn, A.J.W. Biggs, J.C. Dighton, R. Devoil, D. Rassam and V.H. McNeil Hydrogeochemistry of Hodgson Creek Catchment, Queensland Murray-Darling Basin	42
R.C. Dart, D.J. Chittleborough and K.M. Barovich Gold distribution through the regolith profile: examples from the White Dam Prospect, Olary, South Australia	48
J.E. Davey & S.M. Hill Mesozoic Palaeolandscape Reconstruction of the Southern Eromanga Basin: Mineral Exploration Undercover Implications for the Thomson Orogen, Curnamona Province & the Gawler Craton	53
P. de Caritat, N. Lavitt, D. Kirsche and M. Grimley Groundwater composition in the Cannington region, Australia: controlling processes and applications to mineral exploration	56
P. de Caritat, M. Lech, A. Kernich, S. Jaireth and A. Fisher Low-density geochemical survey in the Central Gawler Craton: preliminary results and implications for mineral exploration	59
M. Dürr, S.A. Wakelin, S.L. Rogers, I. White, B.C.T. Macdonald and S. Welch Archeal diversity of an acid sulphate soil in coastal northern NSW	63
T. Eggleton and G. Taylor Pisoliths –formed by accretion or internal reorganization?	67
A. J. Fabris and J.L. Keeling Exploration through transported cover: summary of approaches and methods	71

A.J. Fabris, J.L. Keeling, R.W. Fidler A Comparison Of Geochemical Exploration Techniques: Curnamona Province	74
J.B. Field The effects of biota on the formation of regolith: where are we up to, and where to from here	78
R. Fitzpatrick and R. Merry Geochemistry of drains in Tilley Swamp, Upper South-East, South Australia	84
A. Fitzpatrick, T. Munday, V. Berens, M. Hatch, R. Brodie and K. Cahill Rapid determination of salt-loads along the River Murray using an airborne electromagnetic system	90
K.E. Fitzsimmons Regional landform patterns in the Strzelecki Desert dunefield: dune migration and mobility at large scales ..	95
B. Fu, J.B. Field and L.T. Newham Tracing the source of sediment in Australian coastal catchments	100
D. Gibson Collating ages of Cainozoic volcanics to determine rates of landscape development	105
D.J. Gray and R.R.P. Noble Recent advances in hydrogeochemistry	109
R.S. B. Greene, R.M. Joeckel and J.A. Mason Dry saline lakebeds as potential source areas of aeolian dust: studies from the Central Great Plains of the USA and SE Australia	113
J. Greenfield, W. Reid, P. Gilmore, P. de Caritat, M. Lech, S. Hill, K. Hulme, J. Watkins and L. Worrall The Thomson Orogen Project – a work in progress	118
D. Haberlah Depositional models of late Pleistocene fine-grained valley-fill formations in the Flinders Ranges, SA ...	122
L. Halas, H. Apps, J. Wilford Integrated spatial data analysis and 3d visualisation for understanding the groundwater flow and salinity processes	127
M. Hatch, G. Heinson, T. Munday, V. Berens, A. Fitzpatrick First look at fast-sampling towed-rig EM data collected on land	131
G. Heinson, M. Hatch, T. Dhu, S. Kim, L. Gibbins, R. Neroni, G. Fily, and G. Duval Developments in hydrogeophysical research	136
A. Higgins, S. Beavis, D. Kirste and S. Welch Physicochemical properties of sediments: Loveday Disposal Basin, South Australia	139
A.M.C. Horbe and S.F. Peixoto Geochemistry of Pitinga Bauxite Deposit – Amazonian Region – Brazil	144
B. Hou, A. Fabris, L.A. Frakes, R.A. Chan and J.D.A. Clarke Models and methods of palaeoshoreline/channel deposits in exploration –aspects of Australian cases	147
R. Hough, R. Anand, C. Ryan, M. Norman, D. Belton, B. Etschmann, C. Phang and C. Harland New approaches to detect true element residence in regolith materials	151
G. Hough, S. Reddy, G. Hitchen, D. Vaughan, R. Anand, R. Hart & M. Saunders Supergene gold at the Golden Virgin Pit, Parker Range, Western Australia	154
S.S.M. Hui, D.C. “Bear” McPhail and P de Caritat Sources and sinks of uranium in the Albury-Wodonga Region	156
K.A. Hulme, C.E. Dunn and S.M. Hill Biogeochemistry for mineral exploration in Canada & Australia: a comparison based on international collaboration	161

L. Isaacson, D. Kirste, S. Beavis and S. Welch Controls of acid, salt and metal distribution at a coastal acid aeolian soils site	166
J.M. James, J.W. Wilford and L. Halas Bedrock structural inputs to new-generation Groundwater Flow System (GFS) mapping In UPL and landscapes: a progress report on the Bet Bet Catchment Study, Victoria	171
J. Joseph The feasibility of the airborne fluxgate magnetometer as an exploration tool – results from three dimensional numerical modelling	175
J. Joseph, S. Kim and A. Fabris Electromagnetic surveys of the regolith profile over the Kalkaroo Mineral Prospect, Curnamona Province, South Australia	180
J.L. Keeling Central Gawler Craton – towards an integrated strategy for mineral exploration	185
K. Khider and K.G. McQueen Gold dispersion in calcrete-bearing regolith of the Girilambone Region, Western NSW	190
S. Kim, G. Heinson and J. Joseph Field measurements of electrokinetic potential during a pumping test	196
S. Lamontagne, W.S. Hicks, L. Wen, N. Souter Salinity response of Loveday Disposal Basin to experimental flooding	202
K. Lawrie Improving the outcomes of salinity management in Australia’s regolith landscapes: lessons learned from 5 years of research in CRC LEME, and new opportunities identified	206
M.J. Lenahan, D.M. Kirste, R.G. Cresswell, D.C. McPhail AND L.K. Fifield Unsaturated zone dynamics inferred from Cl ⁻ and ³⁶ Cl: Central New South Wales, Australia	209
M. Lintern Death by gold	213
M. Lintern There’s gold in them thar <i>sand</i> hills!	215
J.R. Lowrey and S.M. Hill Plant biogeochemistry of au-mineralisation buried by an aeolian dunefield: Tunkillia, SA	217
A.J. Mauger Hyperspectral analysis as applied to regolith studies in South Australia	221
D.J. McAvaney and S.M. Hill Neotectonism along intracratonic basin margins: regolith and landscape evolution of Warratta South – New Bendigo Inliers, Northwestern New South Wales	223
D.C. “Bear” McPhail, A. Usher and F. Reith On the mobility of gold in the regolith: results and implications from experimental studies	227
K.G. McQueen Unravelling the regolith with geochemistry	230
K.G. McQueen and K.E. Fitzsimmons Getting those papers written and published	236
J. Meyers, O. Davis and M. Urosevic Seismic reflection studies of uranium bearing stratigraphy at the Beverley Mine, South Australia	242
N. Mikkelsen, D. Ellis, S. Beavis and D.Kirste The geochemistry of a coastal aquifer system: Merimbula, NSW	244

T. Munday, A. Fitzpatrick, R. Doble, V. Berens, M. Hatch, and K. Cahill The combined use of air, ground and ‘in river’ electromagnetics in defining spatial processes of salinisation across ecologically important floodplain areas - Lower River Murray, SA	249
M.J. Neimanis and S.M. Hill Plant biogeochemical expression of uranium mineralization in Australia: research outline and preliminary results	256
R.R.P. Noble Enrichment of arsenic, chromium and lead in soils near the Stawell Gold Mine, Victoria	260
R.R.P. Noble and D.J. Gray A Comparison of hydrogeochemical sampling methods	264
C. Pain A contextual framework for regolith landform mapping in Australia: making the most of LEME products ..	268
A.E. Petts From the Tanami to Tanzania: termite adventures	270
C. Phang, S. Williams, T. Munday and H. Waldron Reflectance spectroscopy of regolith pulps and chips: implications for the detection of alteration mineralogy in the lower saprolite	274
B. Pillans Highlights from the LEME Geochronology Project	279
J.A.W. Raappana and J. B. Field <i>Macrozamia communis</i> (L Johnson) as a biogeochemical indicator of mineralisation on the South Coast of New South Wales	284
N. Reid, S.M. Hill, D.M. Lewis and L. Worrall Geobotanical and biogeochemical associations of SNAPPY GUM (<i>Eucalyptus Brevifolia</i>): Tanami Region, W.A.	288
F. Reith, S.L. Rogers and A. Schmidt Mumm Exploration geomicrobiology – the new frontier	291
I.C. Roach Tomingley Project, Central Western NSW, 1: regolith-landform mapping techniques and implications for landscape evolution	296
I.C. Roach Tomingley Project, Central Western NSW, 2: regolith-landforms of the Tomingley area	301
I.D.M. Robertson, R.R. Anand and M.A. Craig New insights into the Northern Territory regolith	305
L. Ruperto Heavy mineral sands in the Eucla Basin: A placer deposit study	306
P. Shand, J. James-Smith, T. Hodgkin, R. Fitzpatrick, S. McClure, M. Raven, A. Love, M. Stadter, T. Hill AL(OH) ₃ clogging in salt interception scheme boreholes at Bookpurnong, Murray Basin: the role of pyrite and hydroxy-sulfate minerals in ancient coastal acid sulfate sediments	307
M.J. Sheard Regolith landform mapping to enhance exploration through thin to moderate cover: a case study from Wudinna North, Eyre Peninsula-Gawler Craton, South Australia	313
M.J. Sheard, M.J. Lintern, J.R. Prescott and D.J. Huntley Optical luminescence dating of sands from the Great Victoria Desert: South Australia’s oldest desert dune system?	318
M.G. Smith and R.W. Hearn The Lake Muir–Unicup Catchment: clarifying the geology	322

P. Somerville, I. White, B. Macdonald, S. Welch and S. Beavis Groundwater and stream water interactions in Widden Brook, Upper Hunter Valley, NSW: II	326
S. Soongpankhao Biogeochemistry of the Bulong nickel-cobalt laterite deposit, Western Australia	330
G.J. Street Depositional structure reflected in geophysical signatures in the Southwest of Western Australia	334
K.P. Tan, T.J. Munday, H.E.J. Apps and L. Halas Interpreting the electrical conductivity response of regolith materials in various geomorphic settings across Australia	339
G. Taylor Fundamentals of regolith geology	343
L. Tucker and S.M. Hill Biogeochemical residence and dispersion of trace metals in the new Bendigo Inlier and Margins, Northwest NSW	346
S. Tynan, B. Opdyke, D. Ellis, S. Beavis, S. Welch, D. Kirste and L. Wallace Interpreting the trace element ratios of freshwater bivalve shells and their application to understand environmental variability	350
L. Wallace, S. Welch, D.C. McPhail, Dirk Kirste and S. Beavis Preliminary rates of sulfide oxidation under circum-neutral and acidic conditions: Loveday Basin, Lower Murray Floodplains, South Australia	355
S. Welch, G. Yates, A. Higgins, L. Wallace, D. Kirste and S. Beavis Experimental results on sulfur and salt flux from an inland sulfidic system- The Loveday Basin	358
J. Wilford, J. James and L. Halas Multi-scale groundwater flow systems: applications for understanding salinity processes and managing dry saline land	363
P.G. Wilkes and B.D. Harris Geoscience, water and salinity in WA rural towns	366
V.N.L. Wong, R.S.B. Greene, B.W. Murphy, R. Dalal, S. Mann and G. Farquhar The effects of salinity and sodicity on soil organic carbon stocks and fluxes: an overview	367
W. Zang and L. Stoian Tertiary-quaternary land evolution of the Northwestern South Australia	372
