

## **HELENA HINK**

"On this your last day as CRC LEME Administrative Support Officer for Dr Ravi Anand, Program 2 Leader, I would like to record our thanks and appreciation.

You have carried out this important research support role for over six years, in your own cheerful and efficient style, balancing the various calls on your time most effectively. You will be much missed by Ravi, David Gray, Charles Butt and the "Exploration Under Cover" members and indeed, by the Head Office team.

I would like to thank you for your contributions over the years to the Head Office effort - with your back up to Sue Game for the Minex Seminars, and at various times of overload here, but particularly I thank you for the great job you did for the November 2006 LEME Regolith Symposium. I know how much tact, and time, was involved in the lead up to the event, and your attendance and willing assistance during the event contributed towards its success.

We wish you well in your new role at CSIRO (HR-Recruitment) and for the future."
