

SANDRA TYRRELL

"Sandra Tyrrell joined CRC LEME early 2004 as Program Support Officer to the Program 3 Leader Steve Rogers. Following Steve's appointment as CEO in November 2005, Sandra continued in this role for the new P3 leader Paul Shand. Her excellent organisational skills were highlighted by her involvement in the LEME Regolith Symposium, Nov 2006. In the lead up period she assisted Rob Fitzpatrick and Paul Shand in the production of the Symposium Proceedings volume, a difficult and frustrating task with over 300 presentations to include. Sandra organised the submission of abstracts, distributed these to reviewers and chased up both authors and reviewers. Her skills helped to get the volume delivered on time for the opening of the Symposium. Sandra also attended the Symposium and provided excellent support 'behind the scenes', ensuring that the associated activities ran smoothly. Sandra combines a cheerful and 'no-nonsense' attitude to her work and is an extremely efficient administrator."
