

LIST OF CRC LEME REPORTS, PUBLICATIONS, THESES AND MAPS FOR THE COBAR REGION

1. Open File and Restricted Reports

- Chan, R.A., Greene, R.S.B., de Souza Kovacs, N., Maly, B.E.R., McQueen, K.G. and Scott, K.M., 2001. Regolith geomorphology, geochemistry and mineralisation of the Sussex-Coolabah area in the Cobar Girilambone region, north-western Lachlan Foldbelt, NSW. CRC LEME Report 166, 56 pp.
- Chan, R.A., Greene, R.S.B., Hicks, M., Maly, B.E.R., McQueen, K.G. and Scott, K.M., 2002. Regolith architecture and geochemistry of the Hermidale area of the Girilambone region, north-western Lachlan Fold Belt, NSW. CRC LEME 179, 48 pp.
- Chan, R.A., Greene, R.S.B., Hicks, M., Le Gleuher, M., McQueen, K.G., Scott, K.M. and Tate, S.E., 2004. Regolith architecture and geochemistry of the Byrock area, Girilambone region north-western NSW. CRC LEME Open File Report 159, 71 pp.
- Marshall, S.M., Scott, K.M. and Kamprad, J.L., 1996. Mineralogy and geochemistry of the regolith at the McKinnons gold deposit, western NSW. CRC LEME Restricted Report 29R.
- Marshall, S.M. and Scott, K.M., 1998. Geochemical dispersion, mineral distribution and landscape evolution at the McKinnons Gold Deposit, western NSW. CRC LEME Restricted Report 73R.
- Marshall, S.M. and Scott, K.M., 1998. Supergene derived McKinnons gold deposit and associated features in the surrounding weathered rock, CRC LEME Restricted Report 99R.
- McQueen, K.G., 2006. Calcrete geochemistry in the Cobar-Girilambone region, New South Wales. CRC LEME Open File Report 200, 27 pp and CD data base.
- McQueen, K.G., Scott, K.M., Ogilve, P.G. and Crowther, B.R., 2001. Atlas of regolith materials from the weathered zone, New Cobar deposit. CRC LEME Restricted Report 162R/E&M Report 815R, 25 pp.
- McQueen, K.G., Scott, K.M., Ogilve, P.G. and Crowther, B.R., 2008. Atlas of regolith materials from the weathered zone, New Cobar deposit. CRC LEME Open File Report 240. 25pp
- McQueen, K.G., Chan, R.A., Khider, K., Greene, R.S.B. and Scott, K.M., 2008. Regolith architecture and geochemistry of the Girilambone terrain northwestern New South Wales: A synthesis report. CRC LEME Open File Report, in prep.
- Roach, I.C., 2008. Canbelego 1:100 000 regolith-landforms map and explanatory notes. CRC LEME Open File Report 238, 40 pp.

- Scott, K.M., 2002. Mineral Hill Regolith Research: Mineralogy and geochemistry at Parkers Hill and Missing Link. CRC LEME Restricted Report 183R/CSIRO E&M Report 1025R.
- Scott, K.M., 2003. Mineral Hill Regolith Research 2: Mineralogy and geochemistry at Parkers Hill and Pearse. CRC LEME Restricted Report 198R/CSIRO E&M Report 1138R.
- Scott, K.M., 2004. Mineral Hill Regolith Research 2: Mineralogy and geochemistry at the Talingaboolba/Mineral Hill Volcanics unconformity. CRC LEME Restricted Report 211R/CSIRO E&M Report P2004/73R.
- Scott, K.M., 2006. Soil characteristics at the Hera Au-Cu-Zn-Pb-Ag deposit, Nymagee Region, NSW. CRC LEME Restricted Report 241R/CSIRO E&M Report P2006/517R.
- Scott, K.M. and McQueen, K.G., 2000. The mineralogy and geochemistry of New Cobar Au-Cu mineralisation in the regolith and exploration implications for the Cobar district, Western NSW. CRC LEME Restricted Report 137R/CSIRO E&M Report 728R, 35 pp.
- Scott, K.M. and McQueen, K.G., 2001. The mineralogy and geochemistry of New Cobar Au-Cu mineralisation in the oxidate and supergene zones, Cobar district, Western NSW. CRC LEME Restricted Report 167R/E&M Report 845R, 35 pp.
- Scott, K.M. and McQueen, K.G., 2008. The mineralogy and geochemistry of New Cobar Au-Cu mineralisation in the regolith and exploration implications for the Cobar district, Western NSW. CRC LEME Open File Report 239, 35 pp.
- Wells, M.A. and Scott, K.M., 2001. Mineralogy of the Mn-Ni-Co association in the Syerston Ni-Co-Pt Deposit, New South Wales. CRC LEME Restricted Report 165R/CSIRO E&M Report 819R.

2. Other Reports
